

WORK DEPARTMENT.

NIGHT-DRESS SACHET.

FIG. 1 shows the finished sachet in reduced size, Fig. 3 the trimming in the full size, and Fig. 2 the embroidery for border, also in the full size. White linen or cambric, and white or scarlet cotton or silk, may be used for the embroidery. For the trimming, Honiton braid

Fig. 1.

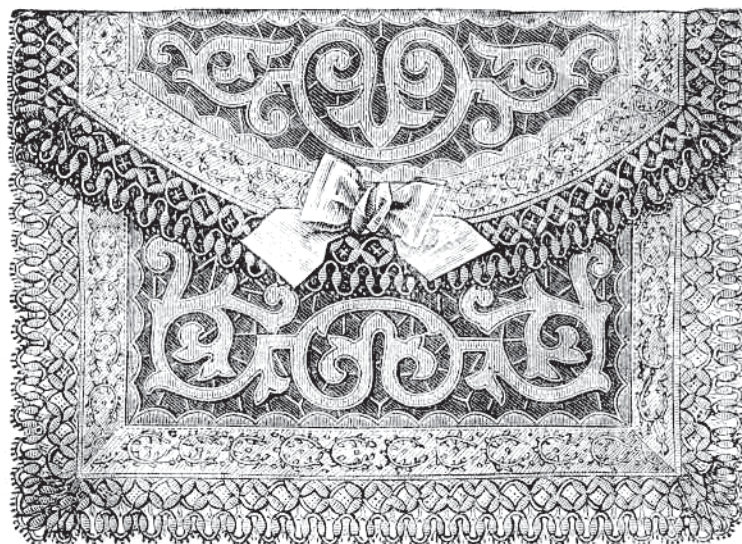

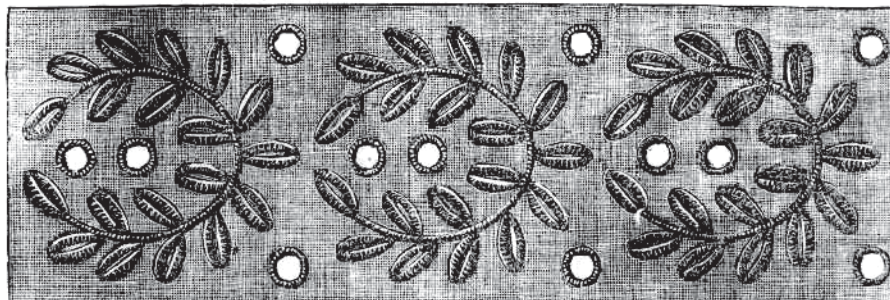

Fig. 2.

is employed. In parts of the design, one pattern of the Honiton is worked over with buttonhole stitch to form the stalk. The heading is of plain braid. The picots at the edge are worked with thread. The lace is full'd at the corners sufficiently to make it set well. The back of the sachet is cambric over lining. For the lining, colored silk is used, and a ribbon bow to match the lining finishes the sachet.
