| | Page |
|--|------|
| Preface. | 1 |
| Remarks on comparison of fastness | 1 |
| Wool. | |
| Preparation before dyeing. | |
| Washing and Scouring | 3 |
| Carbonising | 4 |
| Bleaching and Tinting | 5 |
| Dyeing in an acid bath | 9 |
| Dyeing in a slightly acid bath | 12 |
| Dyeing in a neutral bath | 14 |
| Dyeing in a slightly alkaline bath | 16 |
| Dyeing in an acid bath with subsequent addition of metallic salts. — Single bath. — | |
| After-treatment with potassium (or sodium) bichromate | 17 |
| » » chromium fluoride | 20 |
| » » alum | 21 |
| » » ferrous sulphate and copper sulphate | 22 |
| » » copper sulphate (for Fezzes) . . . | 23 |
| Suitable dyestuffs for shading | 24 |
| Mordanting and dyeing in the same bath. — | |
| Bichromate and formic acid. — | 25 |
| Dyeing mordanted wool with Mordant dyestuffs and certain Aniline dyestuffs. — Two-baths process. — | |
| Chrome mordant | 27 |
| Aluminium mordant | 31 |
| Chrome-copper mordant (for Aniline dyestuffs) . . . | 33 |

| | Page |
|--|-----------|
| Processes of minor importance. | |
| Dyeing with Eosine dyestuffs with the addition of tartar, alum and acetic acid | 35 |
| » in a soap-bath and afterwards stoving | 35 |
| » with addition of bisulphite of soda | 36 |
| Production of pastel colours by dyeing in a chalk bath | 37 |
| Dyeing pale shades in one bath with Alizarine dyestuffs | 38 |
| Dyeing in the vat with Indigo | 39 |
| Hydrosulphite Vats | 40 |
| Fermentation Vats | 45 |
| Shoddy. Stripping and dyeing processes | 47 |
| Selection of dyestuffs for the production of typical shades on the various forms of wool. | |
| Dyeing loose wool, slubbing, cops, weaving and knitting yarns, wool and fur hats (men's hats) | 49 |
| » piece-goods (men's suitings, etc.) | 55 |
| » carpet yarns, fancy yarns, etc. | 60 |
| » ladies' dress-goods, felts, plushes, ladies' hats, etc. | 62 |
| » fezzes | 64 |
| Fastness properties of the wool dyestuffs | 65 |
| Cotton. | |
| Preparation before dyeing. | |
| Boiling out and washing | 97 |
| Bleaching | 97 |
| Mercerising | 99 |
| Processes for dyeing with substantive (direct) dyestuffs. | |
| Dyeing direct in a hot dye-bath | 101 |
| » in a cold dye-bath | 104 |
| » in a strongly alkaline bath | 105 |
| Further development of substantive dyestuffs on the fibre (Diazotisable dyestuffs) | 106 |
| » » of substantive dyestuffs with Paranitraniline or Nitrosamine Red paste (Coupled colouring matters) | 109 |
| After-treatment of direct dyeings with metallic salts | 111 |
| » » » » » formaldehyde | 114 |
| Guide to the selection of substantive dyestuffs for shades generally in demand | 115 |

| | Page |
|--|------|
| Sulphur dyestuffs employed for dyeing cotton direct (Kryogene dyestuffs) | 119 |
| Kryogene Black in the cold fermentation vat | 122 |
| Dyeing with basic dyestuffs on a tannin mordant. | |
| Mordanting the cotton | 123 |
| Dyeing the cotton | 124 |
| Topping with basic dyestuffs on a ground of substantive (direct) or sulphur colours | 126 |
| Dyeing with Indanthrene colours (and similar vat dyestuffs) | |
| Cotton yarn | 127 |
| Cotton piece-goods | |
| on the under-water jigger | 133 |
| padding process | 135 |
| in the dipping vat | 136 |
| Special process for Anthraflavone G paste | 139 |
| Dyeing in the vat with Indigo | 141 |
| Copperas vat | 143 |
| Zinc-lime vat | 144 |
| Hydrosulphite vats (cold and warm) | 146 |
| Fermentation vat | 149 |
| Dyeing of cotton with Alizarine dyestuffs (Turkey Red, Claret, Violet, etc.). | |
| New Red | 151 |
| Claret, violet and pink shades | 153 |
| Old Red | 155 |
| Simplified Turkey Red process | 156 |
| Turkey Red on cotton piece-goods | 158 |
| Alizarine dyestuffs on an iron mordant | 159 |
| Alizarine dyestuffs on a chrome mordant. | |
| With chromium chloride or chromium bisulphite | 160 |

VIII

| | Page |
|---|------|
| Production of dyestuffs on the fibre (Ice-colours). | |
| Nitrosamine Red on cotton yarn | 163 |
| » » » » piece-goods | 167 |
| Scarlet with Chloranisidine P on piece-goods | 169 |
| Claret with Alpha-Naphthylamine on piece-goods . . . | 170 |
| Orange with Metanitriline R on piece-goods | 170 |
| Aniline Black. | |
| Single-bath Aniline Black | 171 |
| Oxidation Black | 172 |
| Topping with Aniline Black (single bath) | 173 |
| Dyeing processes of minor importance. | |
| Dyeing of unmordanted cotton with the addition of alum | 175 |
| » » » » with the addition of acetic acid | 176 |
| » » » » in a common salt bath | 176 |
| » » cotton direct with addition of stannate of soda and sulphuric acid | 178 |
| » » cotton direct with addition of tannic acid and sulphuric acid | 179 |
| » » cotton, mordanted with Turkey Red oil | 180 |
| » » » » soap and stannous chloride | 181 |
| » » » » tannic acid and alu- minium acetate | 181 |
| » » » » alum and stannate of soda | 182 |
| Dyeing of cops, cheeses, etc., in machines. | |
| Preparation | 183 |
| Dyeing with substantive dyestuffs | 183 |
| Further development of substantive dyeings | 184 |
| Dyeing with sulphur (Kryogene) dyestuffs | 187 |
| » » basic dyestuffs (incl. Indoine Blue) | 188 |
| » » Indigo | 189 |
| » » Indanthrene dyestuffs | 189 |
| » » Nitrosamine Red or Paranitriline for production of Para Red | 194 |
| Dyeing cheeses in the froth of the dye-liquor . . . | 196 |
| Fastness properties of cotton dyestuffs | 197 |

Silk.

| | |
|--|-----|
| Preparation before dyeing. | |
| Boiling-off, degumming | 221 |
| Bleaching | 223 |
| Weighting | 226 |
| Processes for dyeing silk with Aniline dyestuffs. | |
| Dyeing in an acid boiled-off liquor bath | 227 |
| » » a slightly acid "broken" boiled-off liquor bath | 230 |
| » » » alkaline or neutral boiled-off liquor bath | 232 |
| » » » standing weak Marseilles soap bath | 233 |
| » » an acetic acid bath without boiled-off liquor or soap | 234 |
| » of Tussah silk | 235 |
| » » Floss (Bourette) silk, silk noils, etc. | 236 |
| Selection of Aniline dyestuffs for shades chiefly required | 238 |
| Processes for dyeing silk with Alizarine and other mordant dyestuffs and with Indigo. | |
| Aluminium mordant | 241 |
| Nitrate mordant | 242 |
| Chrome mordant | 243 |
| Iron mordant | 245 |
| Single-bath process for mordant dyestuffs | 247 |
| Dyeing with Indigo | 248 |
| Treatment of silk after dyeing. | |
| " After-tanning " | 249 |
| Brightening, finishing | 250 |
| Artificial Silk | 251 |
| Dyeing of Chardonnet silk | 252 |
| » » "Glanzstoff" (Lustre silk) | 253 |
| » » Viscose silk | 253 |
| Fastness properties of silk dyestuffs | 255 |

Mixed Fabrics.**Unions (wool and cotton).**

| | |
|---|-----|
| General survey of the various methods of working . . . | 265 |
| Treatment before dyeing | 267 |
| Several-bath method | 268 |
| Two-bath method | 269 |
| Single-bath method | 271 |
| Production of shades as fast to milling as possible . . | 274 |
| Mercerising and dyeing of union piece-goods . . . | 276 |

Half-silk (silk and cotton).

| | |
|---|-----|
| General survey of the various processes | 277 |
| Treatment before dyeing | 277 |
| Several-bath method | 278 |
| Single-bath process | 279 |

Silk and Wool Unions (Gloria, etc.).

| | |
|--|-----|
| General survey of the various methods of working . . . | 283 |
| Treatment before dyeing | 284 |
| Uniform shades | 284 |
| Shot effects | 286 |

Various Materials.

| | |
|--|-----|
| Linen. Linen and Cotton Unions. Hemp | 289 |
| Ramie (China Grass) | 290 |
| Jute | 291 |
| Coir | 296 |
| Straw | 298 |
| Wood Fibre (Chip) | 301 |

| | |
|---|------|
| | Page |
| Feathers | 303 |
| Horsehair. Pigs' bristles | 304 |
| Sisal. Mexican Grass. Piassava. Esparto | 305 |
| Vegetable Ivory. Horn Buttons | 306 |
| Natural and Artificial Flowers | 307 |

APPENDIX.

Mordants and Chemicals.

| | |
|---|-----|
| Acids | 309 |
| Sodium Hydroxide. Sodium Salts | 313 |
| Potassium Salts | 318 |
| Ammonia. Ammonium Salts | 319 |
| Lime. Calcium Salts | 321 |
| Magnesium Salts | 323 |
| Aluminium Salts | 324 |
| Chromium Compounds | 327 |
| Iron Compounds | 328 |
| Manganese Compounds | 329 |
| Zinc Compounds | 330 |
| Copper Compounds | 331 |
| Lead Compounds | 331 |
| Tin Compounds | 332 |
| Antimony Compounds | 333 |
| Soaps, Oils, Solvents, etc. | 334 |
| Tannins | 336 |
| Thickening Agents. Sizing and Finishing Materials | 337 |
| Waterproofing substances | 338 |
