	ACKNOWLEDGMENT II
One	EQUIPMENT USED IN HAND LOOM WEAVING 1
Two	USING THE OUTLINE 3
Three	MAKING A WARP 5
	I. Making a Warp for a Plain Warp Beam 5
	A. Figuring Required Yardage in Warp 5
	B. Buying Yarn 7
	C. Making the Warp 7
	D. Counting Warp Threads 8
	E. Placing Lease in the Warp 9
	F. Taking the Warp off Warping Frame 11
	G. Second Method 11
Four	SETTING-UP OR DRESSING THE LOOM 13
	I. Beaming the Warp on a Plain Warp Beam, Using a Raddle 13
	A. Removing Harnesses and Beater from Loom 13
	B. Placing Warp Beam Stick in Loops of Warp 14
	C. Placing Shed or Lease Sticks in Warp 14
	D. Tying Ends of Shed or Lease Sticks 15
	E. Tying Warp Beam Stick to Warp Beam 15
	F. Placing Raddle or Spacer on Back Beam 15
	G. Spacing Warp in Raddle 16
	H. Winding Warp on Warp Beam 16
	I. Replacing Beater and Harnesses 17
	II. Beaming the Warp on a Plain Warp Beam, Using a Reed 17
	A. Placing Lease Sticks in Warp 17
	B. Threading the Warp Through the Reed 18
	C. Placing Warp Stick in Warp 18
	D. Tying Warp Stick to Beam 18
	E. Moving the Cross from the Front of the Reed to the Back of the Reed 18
	F. Tying the New Lease Sticks Together 21
	G. Winding Warp on the Beam 21
	III. Beaming the Warp on a Sectional Warp Beam 21
	A. Preparing the Warp 22
	B. Placing Spools on Spool Rack 22

<u>Chapter</u>	<u>Page</u>
C. Threading the Thread Guide	22
D. Winding on the Warp	24
IV. Setting Up Looms -- Tying Up Counterbalanced Loom -- Hanging the Harnesses (Temporarily)	25
A. Tying Harnesses in Place Temporarily	26
B. Hanging the Small Rollers	26
C. Hanging Harnesses	27
V. Setting Up Looms -- Tying Up Counterbalanced Loom -- Tying Harnesses to the Lamms	28
A. Attaching each Lamm to Corresponding Harness	28
VI. Setting Up Looms -- Tying Up a Jack Type or Rising Shed Loom	29
VII. Reading the Pattern or Draft	29
A. Method of Notation	29
VIII. Threading the Heddles from Pattern	32
A. Preparing Harnesses for Threading	32
B. Placing Heddles on the Harnesses	33
C. Threading the Heddles	34
IX. Drawing-In or Sleying	36
A. Preparing for Sleying	36
B. Propping Beater or Batten in Position	37
C. Measuring the Reed	37
D. Sleying the Warp	37
X. Tying-In to Apron	38
A. Unrolling Apron and Bringing Over Breast Beam	38
B. Cutting Slots in Apron	39
C. Tying-In Warp Ends to Apron	39
D. Adjusting Tension of All Warp Threads of Apron	40
XI. Tying-Up the Treadles	41
A. Reading the Tie-up Draft	41
B. Reading the Tie-up Draft from Right to Left	42
C. Tying the Treadles	44
Five WEAVING	48
I. Preparing the Weft	48
A. Making Bobbin or Quill for Boat Shuttle	48
B. Winding Bobbin for Boat Shuttle	48
C. Threading Boat Shuttle	49
D. Winding Flat Shuttle	50

<u>Chapter</u>	<u>Page</u>
II. Weaving the Fabric	50
A. Making a Heading	50
B. Checking Threading	52
C. Correcting Mistakes	52
D. Placing Extra Thread in Warp on a Plain Warp Beam	54
E. Weaving Twill Pattern	55
III. Hemstitching	57
A. Preparing to Hemstitch	57
B. Hemstitching after Weaving One to Two Inches	58
IV. Changing Bobbins	59
A. Changing Bobbins	59
V. Winding Web on Cloth Beam	59
A. Winding Web on Cloth Beam	59
VI. Using Two Shuttles on a Twill Weave	60
A. Using Two Shuttles on a Twill Weave	60
VII. Removing Fabric From the Loom	61
A. Hemstitching End	61
B. Overcasting End	63
C. Cutting Warp	63
D. Taking Fabric Off Cloth Beam	64
E. Stitching Raw Ends of Fabric	64
VIII. Finishing Or Processing the Fabric	64
A. Washing the Fabric	64
B. Drying the Fabric	66
C. Pressing the Fabric	66
 <u>Appendix</u>	
One GENERAL INFORMATION	67
Two MATERIALS FOR FABRICS	69
REFERENCES FOR ADDITIONAL READING	71
