

TABLE OF CONTENTS

CHAPTER I

BEGINNING OF THE TEXTILE INDUSTRIES

	PAGE
Primitive Conditions. Era of Hunting and Fishing. Pastoral Age. Agricultural Life. The Household System. The Industrial Revolution	1

CHAPTER II

SPINNING

Spinning by Hand. Spinning by Wheels. The Great Wheel—Parts—Motion—Method of Spinning. The Flax or Saxony Wheel—Parts—Motion—Method of Spinning. Hand and Machine Carding. Modern Spinning Machines—Development. Mule Spinning. Ring Spinning	16
---	----

CHAPTER III

HAND WEAVING

What Weaving Is. Principles Underlying Weaving. Primitive Looms. The Hand Loom—Parts—Working. Winding, Reeling, Warping, and Drawing-in. Taking Off the Finished Warp. Tapestry Looms	45
---	----

CHAPTER IV

POWER WEAVING

The Transition to Power Weaving. The Power Loom—Parts—The Jacquard Loom. Attachments Affecting the Shedding or Picking. Lappet Weaving. Swivel Weaving. Leno or Gauze Weaving. Pile Fabrics. Stitched, Backed, Double-faced, Double and Multiple Cloths. Design, Pattern, Draft, and Drawing-in. Plain and Twill Weaves. Satins or Figured Weaves. Knitting	66
---	----

CHAPTER V

WOOLEN AND WORSTED—RAW MATERIALS

	PAGE
Scope of the Industry. Value. Nature. Desirable Qualities. Conditions Affecting Wool. Properties—Hygroscopicity—Heat Conduction—Evaporation—Felting or Shrinking—Tensile Strength—Elasticity—Electricity. Wool or Hair-bearing Animals. The Domestic Clip. Growth and Care of the Sheep. Marketing of Wool. The Wool Supply. Wastes and Substitutes	100

CHAPTER VI

WOOLEN AND WORSTED—MANUFACTURE

Woolen and Worsted Spinning. Processes Common to Woolens and Worsteds. Explanation of Processes. Sorting—The Feed—Dusting—Scouring—Raw Stock Dyeing—Drying—Blending—Oiling—Burr Extracting—Picking, Teasing, Opening, Willowing, and the Fearnought. Drawing and Doubling. Mule Spinning. Worsted Yarn—Carding—Back Washing—Preparing Gilling—Combing—Finishing Gilling—Drawing and Doubling—Spinning. Counts or Sizes of Yarn. Weaving and Sizing. Finishing. Inspection or Perching. Burling and Mending. Washing and Drying. Fulling, Milling, Felting or Shrinking. Flocks. Napping, Gigging, or Raising. Shearing, Cutting. General Finishes. Final Pressing. Special Finishes. Other Uses of Wool and Worsted Yarns. Rugs and Carpets. Wastes and By-products. Countries Manufacturing. Cutting-up Trade.	119
---	-----

CHAPTER VII

COTTON

Economic and Commercial Conditions. Properties. Botany and Growth. Planting and Picking. Cotton Ginning. Baling. The Industry in the United States. Classification. By-products and Wastes. Judging and Testing. Marketing. Cotton Spinning. Representative Processes—Principles Underlying Cotton Spinning—The Bale Breaker—Breaker Picker—Carding—
--

CONTENTS

ix

	PAGE
Combing — Drawing — Slubbing — Spinning. Cotton Yarns. Bleaching. Mercerizing. Dyeing. Sizing. Counts or Numbering. Winding, Spooling, Warping, and Drawing-in. Weaving. Finishing Cotton Cloth. Absorbent Cotton. Cotton Printing. Cotton Manufacture	163

CHAPTER VIII

SILK

Economic Conditions. Properties. Life History. Countries Cultivating. European Silks. Silk in the United States. Classification of Raw Silk. Silk Reeling. Conditioning. Silk Throwing. Doubling and Twisting. Dyeing and Attendant Processes. Further Processes. Winding after Dyeing. Weaving. Finishing. Silk Manufacture. Spun Silk. Market Terms. Counts for Reeled and Thrown Silk. Counts for Spun Silk. Abuses .	202
--	-----

CHAPTER IX

LINEN AND MINOR FIBERS

Introduction. Properties. Botany and Growth. Rippling. The Seeds. Retting. Breaking. Scutching. Line Spinning. Machine Hackling. Sorting and Cutting. Spreadboard. Drawing and Roving. Spinning. Tow Spinning. Winding, Warping, Sizing, and Drawing-in. Weaving. Method of Counting. Finishing. Bleaching. Dressings. Beetling. Statistics. Additional Fibers — Ramie — Piña — Jute — Hemp — Banana — Sisal — Hemp — Coir	235
--	-----

CHAPTER X

CONSUMER'S JUDGMENT OF TEXTILES

Testing Materials. Wearing Quality, the Burning Test, and Tearing Test. Content, Quality, and Strength of Yarn. Standard Weight. Finish and Weighting. Color Changes. Differentiation Tests. Standardizing Textiles. Analysis of Cloth. Additional Considerations	265
---	-----

CHAPTER XI

MICROSCOPIC STUDY OF TEXTILE FIBERS

	PAGE
Parts of the Compound Microscope. Directions for Use. Preparation of the Mount. Wool and Hair Fibers. Regenerated Wool. Silk. Artificial Silk. Linen. Cotton. Mercerized Cotton. Other Vegetable Fibers. Microscopic Analysis of Fabrics	278

CHAPTER XII

CHEMICAL STUDY OF TEXTILE FIBERS

Classification of Textile Fibers. Ultimate Composition. Action of Acids and Alkalies. Qualitative and Quantitative Differentiation Tests. Mercerization — Nature of Process — Test for. Unshrinkable Wool. Fireproofing of Cotton. Artificial Silks. Dressing and Weighting — Cotton and Linen — Silk — Quantitative Estimation	293
---	-----

CHAPTER XIII

DYEING OF TEXTILE FIBERS

Preparatory Processes — Scouring and Bleaching. Nature of the Dyeing Process. Commercial Methods. Necessary Equipment for Dyeing. General Directions. Mixing, Blending, and Topping. Classification of Dyes. Study and Use of Acid, Basic, Substantive, Sulphur, and Adjective or Mordant Dyes. Dyeing in the Household. List of Selected Dyes. Dyes in Oriental Rugs	317
---	-----

CHAPTER XIV

LAUNDRY NOTES

Introduction. Nature of the Wool Fiber — Felting. Action of the Acids and Alkalies of the Household. Bluings. Fastness of Dyes. Methods of Fixing Colors. Bleaching Agents. Removal of Stains	335
---	-----

CONTENTS

xi

CHAPTER XV

HYGIENE OF CLOTHING

	PAGE
The Hygienic Importance of Clothing. Clothing in Relation to Body Heat. Clothing in Relation to Absorption. Clothing and Cleanliness. An Unrestricted Body. Dangers in Textiles	346

CHAPTER XVI

SOME ECONOMIC AND SOCIAL ASPECTS

Introduction. The Need of an Economics of Consumption. Consumer's Influence upon the Manufacturer. Economic Significance of Dress. Economy in Clothes. Dress as an Ethical Influence. Practical Investigations. Labels and Guarantees. Shopping. Making Clothing at Home. Care of Clothing. Social Economics	356
--	-----

CHAPTER XVII

CLOTHING BUDGETS

The Family Budget. Apportionments for Clothing. Typical Budgets. Clothing Budget for a Family on an \$850 Income. Child Welfare Budgets. Budgets of Students in a Trade School for Girls. Budget for a Business Girl—For a College Girl—For a Professional or Business Woman—For Two Children	380
BIBLIOGRAPHY	409
GLOSSARY	412
INDEX	417
