

CONTENTS

CHAPTER I

BACKED CLOTHS

	PAGES
Introduction of Extra Threads—Principles of Tying or Stitching. <i>Weft-Backed Cloths</i> —Method of Designing—Reversible Weft-backed Weaves—Methods of Weft- Backing Standard Twill and Hopsack Weaves—Warp-Face Weaves Backed with Weft—Method of Selecting Weft Ties—Special Examples of Weft-Backing. <i>Warp-Backed Cloths</i> —Method of Designing—Reversible Warp-Backed Weaves —Beaming and Drafting Warp-Backed Designs—Methods of Warp-Backing Standard Weaves—Method of Selecting Warp Ties—Special Examples of Warp- Backing—Comparative Setting of Backed Cloths. <i>Imitation or Pseudo-Backed Cloths</i> —Imitation Weft Backing—Imitation Warp Backing. <i>Backed Cloths with Wadding Threads</i> —Weft-Backed and Warp-Wadded Designs—Warp-Backed and Weft-Wadded Designs.	1-24

CHAPTER II

DOUBLE CLOTHS

Double-Cloth Structure—Relative Proportions and Thicknesses of the Face and Backing Threads—Origination or Selection of the Face and Backing Weaves—Tying or Stitching—Construction of the Point-Paper Design—Construction of Double- Cloth Designs for Looms with Changing Boxes at one End only—Double-Cloth Beaming, Drafting, and Pegging—Effect of the System of Tying upon the Number of Healds—Special Features in Double-Cloth Designing—Position of the Backing Weave—Systematic Construction of Double-Cloth Designs—Reversible Double Weaves—Double-Cloths with Compound Face Weaves,	24-63
---	-------

CHAPTER III

SPECIAL CLASSES OF DOUBLE CLOTHS

<i>Double Cloths in which the Threads Interchange. Cut Double Cloths</i> —Cut Effects pro- duced by Interchanging the Threads—Designs in which the Cut is produced by interweaving the Threads in 3-and-3 order. <i>Double Plain Cloths</i> —Styles arranged 1-and-1 as to Colour—Correct Joining of Double Plain Weaves—Double Plain Horizontal Hairline—Intermingled Double Plain Effects—Specially arranged Double Plain Stripes—Double Plain Spotting—Broad Double Plain Stripes— Double Plain Cloths Specially Coloured in the Warp—Comparison with the First System—Cutting and Joining the Weaves—Methods of Colouring the Backing Ends—Method of Designing Stripe Patterns—Construction of Double Plain Check Patterns—Double Plain Effects in Three or Four Colours—Four- Shade Effects Coloured 1-and-1 in the Warp—Three-Colour Patterns arranged 1 Face, 1 Back in the Warp—Four-Colour Patterns arranged 1 Face, 1 Back in the Warp. <i>Double Twill and Sateen Stripe Designs</i> ,	63-88
---	-------

CONTENTS

CHAPTER IV

WADDLED AND CENTRE-STITCHED DOUBLE CLOTHS AND TREBLE CLOTHS

	PAGES
<i>Waddled Double Cloths</i> —Weft-Waddled Double Cloths—Warp-Waddled Double Cloths. <i>Centre-Stitched Double-Cloth Designs</i> —Centre Warp Stitching—Centre Weft Stitching. <i>Treble Cloths</i> —Systems of Stitching—Treble Cloth Designing in Stages—Construction of Drafts and Pegging Plans—Systematic Construction of Treble-Cloth Designs—Use of Centre Fabric as Wadding,	88-106

CHAPTER V

EXTRA WEFT FIGURING

Principles of Figuring with Extra Materials—Methods of Introducing Extra Figuring Threads—Methods of Disposing of the Surplus Extra Threads. FIGURING WITH EXTRA WEFT—Continuous Figuring in one Extra Weft—One-and-One Wefting— Two-and-Two Wefting—One-and-Two Wefting—Two-and-Four Wefting— Selection of Suitable Positions for the Figuring Floats—Extra Material Cut Away—Extra Weft Stitched In—Modification of Ground Weave—Intermittent Extra Weft Figuring—Combination of Ground Weft Figure and Extra Weft Figure—Stitching by means of Special Ends— <i>Figuring with Two or More Colours of Extra Weft</i> —Pick-and-Pick Figuring—Methods of indicating Pick-and-Pick Ground Weaves—Pick-and-Pick Weave Shading—Pick-and-Pick Reversible Tapestry Style—Multiple Weft Persian Style of Figuring—Chintzing— <i>Reversible Weft-Face Figured Fabrics</i> —Simplified Methods of Designing—Treble-Wefted Reversible Fabrics,	106-131
--	---------

CHAPTER VI

EXTRA WARP FIGURING

Comparison with Extra Weft Figuring—Continuous Figuring in one Extra Warp— Heald and Harness Mounting—Alhambra Quilts—Binding in Extra Ends between Face Floats—Intermittent Figuring in One Extra Warp—Drafting and Denting Extra Warp Stripes—Figuring with Two Extra Warps—Stitching by means of Special Picks—Extra Warp Planting—End-and-End Figuring— Reversible Warp-Face Figured Fabrics,	131-147
--	---------

CHAPTER VII

FIGURING WITH EXTRA WEFT AND EXTRA WARP

Economical Use of Extra Materials—Extra Warp and Extra Weft Spotting. DOUBLE WEAVE COMBINATIONS—Designs Produced in Double-Plain Weaves—Double Twill Weaves—Combination of Fine and Coarse Fabrics— <i>Combinations of Double Weaves and Warp and Weft Float</i> —Crepon Structures—Double Weave and Weft Figure on Warp-Rib Ground,	148-156
---	---------

CHAPTER VIII

SPECIAL JACQUARD AND HARNESS MOUNTINGS AND SYSTEMS OF DESIGNING

Comparison with Ordinary Jacquard and Harness Mounts. <i>Sectional Jacquard and Harness Arrangements</i> —Sectional Harness Ties—Special Connection of Hooks	
--	--

CONTENTS

ix

	PAGES
and Needles—Special Draft of the Warp Threads—Designing and Card-Cutting for Sectional Arrangements. <i>Methods of Increasing the Figuring Capacity of Jacquards</i> —Inverted Hook Jacquards—Combinations of Healds with Harnesses—Combinations of Lifting Rods or Bars with Jacquard Machines. <i>The Split Harness or Shaft Monture</i> —Operation of the Lifting Rods—System of Designing. <i>Working Comber-Boards</i> ,	156-168

CHAPTER IX

FIGURED MUSLIN AND DAMASK FABRICS

Figured Muslin Fabrics. FIGURED BOOK MUSLIN FABRICS—System of Loom Mounting and Structure of the Cloth—Features in Painting-out Designs—Ground Weave Variation—Introduction of Ground-Weft Cords—Weaving Particulars of Book-Muslins—Book-Muslin Loom. DAMASK FABRICS—Reversible and Non-Reversible Damasks— <i>The Pressure Harness</i> —Form of the Healds—Operation of the Harness and Healds—Method of Designing— <i>The Self-Twilling Jacquard</i> —Arrangement of Needles, Hooks, and Lifting Bars—Operation of Twilling Needles—Proportions of Hooks to Needles—Operation of Card Cylinder—Changing the Capacity and Sett—System of Designing—Production of Diversity of Effect, . . .	169-186
---	---------

CHAPTER X

TAPESTRY AND UPHOLSTERY CLOTHS AND INGRAIN CARPETS

TAPESTRY AND UPHOLSTERY CLOTHS—Figured Double and Treble Plain Cloths—Combinations of Double Plain and Weft or Warp Figure— <i>West-Face Tapestry Cloths</i> —Figuring with the Harness Threads—Diversity produced by Mixing the Wefts— <i>Specially Stitched Weft Tapestry Cloth</i> —Special Weft Tapestry Mounting—Warp-Face Tapestry Cloth. SCOTCH, KIDDERMINSTER, OR INGRAIN CARPETS— <i>Double Plain Cloth Jacquard</i> —Operation of the Jacquard and Comber-Boards—Method of Designing—Limitation of the Mounting— <i>West-Face Ingrain Carpets</i> —Reversible Four-Ply Weft Structure—Methods of Producing Variety, . . .	186-208
---	---------

CHAPTER XI

FANCY TOILET AND QUILT FABRICS

<i>Fancy Toilet Cloths</i> —Classification of the Fabrics—Loose-Back Toilets. <i>Fast-Back Toilets and Marseilles Quilts</i> —Method of Designing—System of Loom Mounting—Four-Pick Structure—Five-Pick Structure—Special Five-Pick Cloth. <i>Mitcheline or Patent-Satin Quilts</i> —Method of Loom Mounting—Method of Designing and Structure of the Cloth—Other Varieties of Quilts,	208-220
--	---------

CHAPTER XII

GAUZE AND LENO FABRICS

Structure of the Cloths. <i>Gauze Mounting</i> —The Doup—Bottom and Top Douping—Gauze and Leno Drafting—Relative Position of Healds—The Easer or Slackener
--

CONTENTS

	PAGES
—Sheds formed in Doup Weaving—Construction of Lifting Plans—The Shaker Motion—Gauze and Leno Compared—Modifications of Pure Gauze and Leno. <i>Combinations of Gauze and other Weaves</i> —Stripe Patterns—Cellular Tennis Shirtings—Russian Cords—Simple Cross-over and Check Gauze Effects. <i>Simple "Net" Lenos</i> —Comparison of Top and Bottom Doup Pegging Plans—Denting Net Lenos—Designing Net Lenos and Features to Note—Production of Pattern by Varying the Lifts of the Standard Ends—Bead Mounting for Net Lenos. <i>Combinations of Gauze and Leno with Extra Warp and Extra Weft Effects. Two or More Doup Patterns. Patterns produced by one Doup and two or more Back Crossing Healds</i> —Comparison with Two-Doup Style—Construction of Heald-Knitting Plans for Gauze Stripes—Fancy One-Doup Net Leno—Distorted Weft Styles—Gauze and Figure Weave Combinations,	220-258

CHAPTER XIII

JACQUARD GAUZE AND LENO FABRICS

<i>Ordinary Jacquard and Doup-Heald Mountings</i> —Styles of Cloth—Combinations of Gauze, Plain Weave, and Warp (or Weft) Figure—One-crossing-one Styles—Special Ground Weaves—One-crossing-two Styles—Use of Two Doups—Modification of Gauze Ground—Net-Leno Figured Styles—One-crossing-three Patterns—Combinations of Twill and Gauze. <i>The Special Gauze Jacquard and Harness</i> —Arrangement of Harness, Hooks, and Needles—System of Drafting—Method of Douping and Easing—Construction of Gauze Ground Weaves—Designing of Figures—System of Card-cutting—Top Douping in the Gauze Harness. MADRAS GAUZE FABRICS—Structure of the Cloth— <i>The Madras Loom</i> —System of Drafting—Method of Crossing the Ends—Method of Easing—Arrangement of Shuttle Boxes—Operation of the Gauze Reed—Operation of the Easing Bar—Operation of the Tug Reed—The Picking Motion—The Up-take Motion— <i>Madras Designing</i> —Modifications of the Structure—Single Cover Chintzed Design—Gauze Figure on Opaque Ground—Complex Three-colour Fabric—System of Card-cutting,	258-296
---	---------

CHAPTER XIV

LAPPET WEAVING AND DESIGNING

Features of Lappet Figuring—Scotch Lappet Wheel Loom. <i>Common Wheel Lappet System</i> —Rotation of the Pattern Wheel—Vertical Movement of the Pin and Needle Bars—Method of making the Needle Bars Inoperative—Lateral Movement of the Needle Bars—Relation of Movement of Shifter Frames to Rotation of Pattern Wheel—Construction of a "Common" Lappet Wheel—Methods of Indicating Lappet Designs—Method of Indicating a Pattern Groove. Continuous Two-frame Lappet Design—Relative Positions of the Needle Bars and Pecks. <i>Intermittent Three-frame Lappet Style</i> —Continuous All-over Three-frame Lappet Design. Crossing the Needle Bars. To find the Diameter of a Wheel—The Length of Repeat. Methods of Diversifying Lappet Designs—Spacing the Needles in the Bars. <i>Presser Wheel System</i> —Construction of a Presser Wheel—To find the Length of Whip Warp—Lappet Styles in Imitation of Net Leno—Waved Russian Cords. Imitation Lace. Patterns produced by varying the Order of Lifting the Needle Bars,	296-334
---	---------

CONTENTS

xi

CHAPTER XV

SWIVEL WEAVING AND DESIGNING

	PAGES
Purpose of Swivel Mechanism—Swivel Ornamentation and Embroidery compared— General Description of Swivel Mechanism—Relation of Pitch of Shuttles to Repeat of Jacquard. Detached Swivel Figures—Imitation Embroidery— Special Swivel Style—Figuring with two or more Swivel Wefts—Combination of Swivel and Ordinary Figures—Production of Detached Figures in One Kind of Weft by Two Shuttles—All-over Swivel Figures. <i>Power Swivel Mechanisms—</i> All-over Figuring Swivel Loom—Rack and Pinion Swivel Loom—Circular-Swivel Mechanism,	334-362

CHAPTER XVI

WEFT PILE FABRICS

Formation of Weft Pile. <i>Plain Velveteens—</i> Tabby or Plain-back Velveteens—Length of the Pile—Density of the Pile—Changing the Density of the Pile—Fastness of the Pile—Twill-back Velveteens—Designs which simplify the Cutting Operation. <i>Corded Velveteens—</i> Corded Velveteen Cutting—Corded Velveteens from Plain Velveteen Weaves—Particulars of Weft Pile Fabrics. <i>Weft Plushes. Figured</i> <i>Weft Pile Fabrics—</i> Figured Velveteens—Figured Cords. <i>Imitation Weft Pile</i> <i>Fabrics,</i>	362-382
--	---------

CHAPTER XVII

TURKISH TOWELLING FABRICS

Formation of the Pile—Turkish Towelling Weaves—Methods of Drafting and Denting —Terry Motions. <i>Terry Ornamentation—</i> Stripe and Check Dobby Patterns— Figured Terry Pile Fabrics—Mixed Colour Effects,	382-395
---	---------

CHAPTER XVIII

WARP PILE FABRICS

Formation of Warp Pile—Form of the Pile Wires—Structure of Warp Pile. <i>Plain</i> <i>Warp Pile Fabrics—</i> All the Pile over each Wire—Two Picks to each Wire— Three Picks to each Wire—Fast Warp Pile Designing—Method of Heald Drafting —Four Picks to each Wire—One-half the Pile over each Wire—Backed and Double Foundation Cloths—Warp Pile Astrakhan Textures—Reversible Warp Pile Structures—Double Plush Weaving—Ornamentation of Plain Warp Pile Fabrics. Stripe and Check Designs,	395-407
--	---------

CHAPTER XIX

FIGURED WARP PILE FABRICS

Figuring with Cut and Looped Pile. <i>Warp Pile Figuring on Ordinary Weave Grounds—</i> <i>Pile Figuring with Extra Threads—</i> Figuring with Pile Threads which inter- weave in the Ground—Combinations of Pile and Figured Warp Rib. <i>Com-</i> <i>binations of Pile and Double Plain Cloth. Combination of Pile and Weft Figure.</i> <i>Looped Pile and Warp Rib Figure on Cut Pile Ground,</i>	408-425
---	---------

CHAPTER XX

FIGURED PILE FABRICS IN WHICH THE DESIGN IS DUE TO COLOUR

	PAGES
<i>Wilton and Brussels Structures</i> —Comparison of the Cloths—Distinguishing Feature of the Cloths—Planting—Method of Designing—System of Loom Mounting—Card-cutting—Six-frame Mounting—Structure of Wilton Pile—Structure of Brussels Pile—Two-pick Wilton Pile Structure—Moresque Effects—Development of the Colours in both Cut and Looped Pile. <i>Tapestry Pile Carpets</i> —Comparison with Brussels and Wilton Structures—Tapestry Pile Designing—Preparation of the Pile Yarn for Printing—The Printing Drum—The Printing Pulley—The Scale Board—Operation of Printing—Beaming the Pile Warp—Structure of Tapestry Pile—Tapestry Pile Weaving. <i>Chenille or Patent Axminster Pile</i> —Comparison with Tapestry Pile—Chenille Pile Designing—Formation of the Chenille—Setting—Structure of the Fabric. <i>Moquette or Royal Axminster Pile</i> ,	426-449
INDEX,	451-461
