

*Les Dentelles aux Fuseaux 1re Serie; Dillmont, Th. De*

This is the first of two DMC books on torchon designs. Unfortunately, it is almost impossible to find the second in the series, but the search goes on. It is a book of patterns and prickings, clear and easy to follow. Several of the prickings have been clipped by previous lacemakers, but with the pictures and the parts that remain, the average lacemaker shouldn't have any trouble making the lace.
