

La Jeunesse, ed.—Filet Artistique (Art Filet); Ouvrages de Dames, No 263;
Paris, no date

Review: These filet patterns are clearly laid out for working and would do very well for cross stitch, bobbin lace, or any other technique needing evenweave fabric or a four-square ground. The booklet, a catalogue from a women's work magazine, was found in an attic in France and makes a very nice addition to the Archives. The center page has a selection of religious motifs and the rest are traditional designs drawn from Italian and other sources.
