

Title: Macrame; DMC library; n.d.

Topic: Macrame, Lace

Review: This book has been published in French of course, but we are fortunate to have this copy in English. The book has the text with clear instructions usually found in DMC publications, plus thirty-one plates of worked examples of macrame. These are not in color, but are clear enough to be of use to anyone wanting to copy them, and the changes in value of the gray scale will be very useful no matter what colors are chosen.
