La Dentelle. Histoire, Description, Fabrication, Bibliographie. [ Lace - its History, Description, Fabrication; Bibliography ]

This book, in French, is very well known for its excellent history of lace and lacemaking in France from the earliest days to the beginning of the 20th century when it was written. Following the painstaking descriptions of lace towns and villages and the commercial lace industry in the main part of the book, there are 50 plates of laces tracing its development up to modern times.
