## Maysville Rug Filler

Maysville Rug Filler, or Roving, as it is known to the trade, is made of loosely spun cotton in rope form; about the thickness of a lead pencil, it is very soft, lustrous and fluffy. Weavers are enthusiastic about Maysville Rug Filler; it gives that individual, distinctive touch so much to be desired. It is used with Maysville Warp for hand loomed rugs and striking results can be obtained by combining different colors of the Rug Filler in the body of the rug or for beautiful border effects. It makes a firm, strong, good wearing rug. Also used in combination with rags. May we send you an attractive folder and sample card showing actual samples of Rug Filler?
