UNITED STATES PATENT OFFICE.

ISAAC E. PALMER, OF MIDDLETOWN, CONNECTICUT.

DESIGN FOR HAMMOCK FABRIC.

SPECIFICATION forming part of Design No. 35,753, dated February 18, 1902.

Application filed January 20, 1902. Serial No. 90,589. Term of patent 14 years.

To all whom it may concern:

Be it known that I, ISAAC E. PALMER, a citizen of the United States, and a resident of Middletown, in the county of Middlesex and State of Connecticut, have invented a new and original Design for a Hammock Fabric, of which the following is a specification.

The essential feature of my design consists in a hammock fabric presenting warp-threads arranged in groups composed of pairs, the threads of each pair alternately separating from and approaching each other and the approaching and separating positions of the threads in one pair of a group alternating with the approaching and separating positions of another pair of the group, and the weft-threads being arranged in pairs, the threads of each pair alternately separating from and approaching each other and interlocking with the groups of warp-threads.

In the accompanying drawings, Figure 1 is a face view of the hammock fabric, and Fig. 2 is a reverse view of the hammock fabric.

The two pairs of weft-threads in each group of warp-threads are denoted by *a* and *b*, and the two threads of each pair of warp-threads are denoted by *c* and *d*.

What I claim is—

The design for a hammock fabric, substantially as herein shown and described.

In testimony that I claim the foregoing as my invention I have signed my name, in presence of two witnesses, this 15th day of January, 1902.

ISAAC E. PALMER.

Witnesses:

CHAS. M. SAUER,
PAUL S. CARRIER.
