

Satins

Ralph E. Griswold

Pattern Book

This pattern book contains all the satins for 5 to 20 shafts. These patterns were produced by a program using the standard definition of satin counters.

Kris Bruland has digitized these patterns and put WIFs for them on <http://www.handweaving.net>, where they can be downloaded without charge.

The patterns here have been derived from the WIFs and provided for browsing and easy identification of patterns of interest.

The patterns are organized by size, width first. Identifying numbers for the WIFs are given below the patterns. For example, 8766 refers to 8766.wif on <http://www.handweaving.net>.

Material in this document may be used freely for individual projects, but republication is prohibited.
