

INTERSHIP

In need of a few students to help on three programs. Work hours are flexible. Contact me at cengr@juno.com or call 520.623.0503. Office is located in West University area. Can walk to office.

1. Convert and upgrade existing Lisp program in AutoCAD and convert to Visual Basic inside of AutoCAD.
2. Create an App to be able to display maps and locations using GPS data.
3. Create a Visual Basic Program inside of AutoCAD to convert Excel data into mapping objects and set on proper layer.
