

If you are a Product Certification Engineer with hands-on prototyping experience, please read on!

## **What You Will Be Doing**

Our Products group in Tucson, Arizona has an opening for a hands-on Product Certification Engineer. This position is responsible for leading tests to qualify new products and to support changes to existing products. Assist with the on-going short term reliability test program. Use CAD programs to develop concepts and designs.

Do you enjoy working with different departments and do you want exposure to all levels of completing your projects? If you said YES, then this position is for you. Meeting and commitments to or with either suppliers or customers will be made and you have the ability to meet face to face with all departments needed for your projects.

## **What You Need for this Position**

At Least 1 Year of experience and knowledge of:

- Mechanical or Electrical Degree
- Prototyping
- Client Facing/Customer interface
- Drafting Software

## **What's In It for You**

We offer a competitive salary range of \$40K - \$50K, unbelievable benefits, employee bonuses, and a stable work environment.

**JOIN US TODAY!**

So, if you are a Product Certification Engineer with hands-on prototype experience, please apply today!
