

Seeking: Background in a hard science (math, statistics, physics, chemistry, IT, computer science etc.) or a demonstrated technical aptitude

**We are currently looking to build our team of Product Specialists who work on our Qualtrics University team.** This team serves as a 12-24 month training program that will prepare you to grow into new and exciting opportunities across the organization. Each day you will have the opportunity to interact with some of the world's top minds as you help our clients take their research to the next level. If you love learning new technologies, thrive in fast-past and dynamic environments, and love the idea of tackling new challenges every day, this team is for you!
