

## **WordPress Expert Needed**

I am seeking a student or TA who knows WordPress extremely well who can teach me to build my own site (beyond a blog ;post site). I am not new to web-site design, given I have had someone create three sites for me, but I am at the point where I need to learn the how-tos for myself! I need to build my site ASAP, so please do not delay in contacting me, if you are interested: 520-241-8797. Assisting in the site construction can be accomplished in-person meetings or virtually.
